OBJECTIVE:

To apply problem solving skill as a software engineer.

EDUCATION:

Digital Crafts

-Full Stack Coding Boot Camp (SEP 2017 ~ JAN 2018)

Florida State University

-Master of Engineering in Structural Engineering (DEC 2013)

-Bachelor of Science in Civil Engineering (DEC 2012)

EXPERIENCE:

JOB TITLE: STRUCTURAL ENGINEER (APR 2014 ~ AUG 2017)

FIRM: GRESHAM SMITH & PARTNER (MULTI-DISCIPLINE BUILDING ENGINEERING FIRM)

-Modeling calculated structural components into CAD software (Revit & AutoCAD).

-Coordinate with various engineering disciplines and architectures to ensure structural components are not in conflict with the other building objects.

-Communicate with owners at the schematic design phase to ensure that the team is clear on client expectations.

- As an engineering liaison, assist foreign clients and internal teammates (other engineering disciplines) to make sure that both parties are clear on engineering issues and solutions.

CODING LANGUAGE / TOOL:

-JavaScript   -jQuery   -nodeJS(Express)

-HTML   -CSS   -Bootstrap

-Python

-SQL(MySQL)
